Hardy Fruit Trees from the Ozark Fruit Belt

We have specialized for many years in growing fruit trees. We can assure you that our trees from the very heart of the Ozark Fruit Belt are exceptionally hardy. It is our aim to furnish the best standard varieties and proven successful new varieties.

Black Ben Davis

Dark Red Jonathan

APPLE TREES

Best Varieties That Ripen from Early Summer to Late Fall

	Each	10	100
2 to 3 feet—Prepaid	\$.40	\$3.50	\$30.00
3 to 4 feet—Prepaid50	4.00	35.00
4 to 5 feet—Not prepaid60	5.00	45.00
5 to 6 feet—Not prepaid80	7.00	65.00

ADA RED—Best medium to large red early summer apple. Extra fine eating and cooking, also shipper. Ripens latter part of July and first of August at a time when no other red apples are on the market. Extra good coloring makes good marketing. Trees bear young and are heavy bearers. We have an orchard of this variety and can highly recommend them.

ARKANSAS BLACK—Very dark red, almost black. Winter. Firm, crisp, juicy, especially fine flavor. Extra good baking apple. Good keeper. Large fruit, vigorous grower.

BLACK BEN DAVIS—Solid dark red Ben Davis. A vigorous grower, hardy, prolific bearer. Fruit more oblong shape than Ben Davis. Winter.

DARK RED DELICIOUS—Extra large, high quality and a very delicious flavor. Beautiful all-over dark red, pin-dotted color. Good home use and commercial. Trees are vigorous and bear young.

YELLOW DELICIOUS—Fruit extra large, delicious flavor. Trees bear young. Ripens autumn.

EARLY HARVEST—July. Medium size, flattened round, good flavor eating apple. Waxy yellow. A healthy good bearer but not as thrifty grower as some later varieties.

GRIMES GOLDEN—A favorite autumn yellow. The flavor is very choice. Keeps well for a good winter eating apple.

JONATHAN—This well known, proven successful apple is a special favorite as a commercial apple as well as home use. A sure heavy bearer. Medium size, well shaped, solid red. Bears young. Autumn.

MAIDEN BLUSH—Large, blush on yellow. Rather flat shape. An excellent late summer home use apple. August.

MAMMOTH BLACK TWIG—Very large, deep to dark red. A good commercial grower, trees vigorous and young bearer. A special favorite for a good keeping winter apple for eating and cooking.

RED ASTRACHAN—A hardy, thrifty growing tree. Fruit is medium to large red striped. Summer.

RED JUNE—Medium small, shiny red, excellent flavor, eating and cooking apple. Ripens early summer just after Early Harvest.

STAYMAN WINESAP—Those who like a juicy, Wine-sap apple will be delighted with this apple. Fruit large deep red, an extra good keeper. Trees good bearers. Winter.

WEALTHY—Medium to large, red striped. A widely known variety for successful marketing value. Trees bear early and excellent cropper. Fruit good flavor for eating and all home uses.

WINESAP—This is the old well known juicy Wine-sap apple which is always a favorite for storing for winter use, a good cider apple. Keeps well. Fruit medium size, solid red color. Trees hardy, a good dependable bearer.

APPLES—Continued

DARK RED JONATHAN—A profitable commercial apple, an improved variety. Beautiful all-over dark red, rich flavor. Ripens about one week earlier than Jonathan. Considered one of the most attractive marketing varieties.

YELLOW TRANSPARENT—Preferred by many to be the best early apple. Fruit light yellow with whitish skin when ripe. Ripens early summer. One of the best home use apples for cooking and eating.

BEN DAVIS—Thrifty growing tree. Fruit large round, red striped. Good for cooking and shipping. Winter.

SWEET BOUGH — Greenish yellow. Fruit quite large, juicy and sweet. This is the leading sweet apple. Ripens mid-summer.

CRAB APPLES

1 to 2 feet—Prepaid Each \$.35

2 to 3 feet—Prepaid45

FLORENCE CRAB APPLE—Trees are rather small in size, but very attractive. Fruit is average crab apple size, setting on in clusters. Golden yellow with light red blush nearly covering. Bears fruit very young and abundantly.

RED SIBERIAN CRAB—Fruit small, bright yellow with red cheek, becoming nearly entirely red if allowed to ripen on tree for some time. Fruit hangs on tree well. Excellent for juice, jellies, preserves and especially for pickling.

Waneta

PLUMS

	Each	10
2 to 3 feet—Prepaid	\$.50	\$4.50
3 to 4 feet—Prepaid60	5.00
4 to 5 feet—Not prepaid70	6.00
5 to 6 feet—Not prepaid80	7.00

AMERICA—Large attractive yellow, coral red over-spread. A delicious flavor. Trees vigorous, bear young and abundantly in all sections. Very early. Very juicy and sweet. Tree is vigorous, upright and hardy. Ripens very early.

HANSKA—Bright red color with firm flesh and very small pit. This plum has a flavor much like an apricot. Trees bear early. An attractive tree for lawn as well as fruit value.

OPATA—Purplish-red; early, abundant bearer. Trees upright, vigorous. A Hansen hybrid. Excellent for market and home uses.

PEARS

2 to 3 feet—Prepaid..... Each \$.75

3 to 4 feet—Prepaid..... 1.00

DOUGLAS — Blight resistant. Very large yellow, blushed pink. Flesh white; juicy, excellent quality and flavor. Heavy producer. Will bear second year after planting. Ripens early fall.

Douglas Pears

Hansen's Bush Cherries

HANSEN'S BUSH CHERRIES

Beautiful ornamental when in bloom and in fruit. Good yielder of plum-shaped cherries. May be used fresh, makes delicious jams and jelly. Trees dwarf in size. Hardy everywhere. Usually start bearing the second year. Well branched. Price: 2 to 3 feet, 60c each, prepaid.

PLUMS—Continued

SAPA—Medium to large; skin dark purple, flesh very dark red clear through; a Hansen hybrid. Trees are heavy, very young bearers. Ripens in July. Very fine for canning, juices and jellies.

WANETA PLUM—Very large, bright red, very fine quality and flavor. A Hansen hybrid. Trees very productive and bear very young. We urge you to add some of these trees to your home orchard.

COMPASS CHERRY-PLUM

This variety should not be overlooked when planning the home orchard. Its quality is between the cherry and plum. A dark wine color. Tree is hardy, young, and dependable bearer. Fruit enough like a plum to make delicious butters and preserves.

	Each	10
2 to 3 feet—Prepaid.....	\$.60	\$5.00
3 to 4 feet—Prepaid.....	.70	6.00

South Haven

PEACHES

2 to 3 feet—Prepaid	\$.40	\$3.50	\$30.00
3 to 4 feet—Prepaid50	4.00	35.00
4 to 5 feet—Not prepaid60	5.50	50.00

BELLE OF GEORGIA—(Freestone). White with attractive red cheek. Large, good quality. Ripens early August.

CARMAN—(Freestone). Flesh is white, skin red splashed on creamy white. Fruit large and attractive. A very hardy variety, excellent for the home orchard as well as commercial. Ripens early July.

CHAMPION—(Freestone). Rosy cheeked, creamy white. This variety has a delicious flavor all its own. Without a doubt one of the best varieties for home use, especially canning. Ripens latter part of July and August first.

CHINESE CLING—(Clingstone). White, slightly blushed. A splendid preserving peach and other home use. Ripens middle to late July.

CRAWFORD EARLY—(Freestone). An attractive, large yellow peach, good quality and flavor. Ripens August.

ELBERTA—(Freestone). This is the well known commercial peach, hardy and does well in all sections. Beautiful large, golden yellow, with slightly blushed cheek. Very rich and juicy. Ripens August first.

EARLY ELBERTA—An improved Elberta, similar to the Elberta but ripens a week to ten days earlier. Good for commercial planting, also home use.

EARLY WHEELER—(Semi-clingstone). Creamy white with bright glowing red overspread. Juicy but firm with extra good flavor. This variety should be in every home orchard. Ripens early July.

FRANK—(Clingstone). Large yellow, with red covering. One of the new improved hardy varieties, proven a sure bearer. Ripens first week of September.

HEATH CLING—(Clingstone). White. An old time favorite for pickling and preserving and is always good on local markets. Very late, ripening the latter part of September.

HALE HAVEN—(Freestone). One of the new varieties especially recommended for hardiness. An attractive yellow with red. Good commercial. Ripens about two weeks before Elberta.

GOLDEN JUBILEE—(Freestone). Large yellow, with red blush. One of the new improved hardy varieties. Ripens about twenty-five days before Elberta.

SOUTH HAVEN—(Freestone). Large yellow. This variety is another of the new good hardy varieties. A heavy bearer. Ripens ten days before Elberta.

J. H. HALE—(Freestone). Large round yellow, overspread with red, similar in color to Elberta but larger and almost free of fuzz. Flesh is solid but juicy, flavor sweet without bitter tang. Ripens about one week before Elberta.

ROCHESTER—(Freestone). Deep yellow, tinged red, flesh yellow, tinted red at the free stone. High quality, best flavor. Favored for its commercial value as well as for home orchard. Ripens two weeks before Elberta. Trees hardy and productive.

SALWAY—(Freestone). Large yellow, with bright red cheek. Flesh deep yellow, red at pit. Tree hardy, bears young. Ripens very late.

INDIAN CLING—(Clingstone). Skin deep red with blood red flesh. A delicious, juicy flavor. Used much for pickling. Ripens about August 10th.

MAMIE ROSS—(Freestone). White with red cheek. Flesh white, juicy and firm. A good, tough skin, making a good shipper for an early variety. Ripens July.

MAYFLOWER—(Semi-clingstone). Creamy white, blushed red, medium size. The earliest peach to ripen, the latter part of June.

RED BIRD CLING—(Semi-clingstone). Creamy white overspread with red. A firm, good, early shipper, good flavor. One of the first large peaches on the market. Ripens first of July.

MIKADO—(Semi-clingstone). Extra large yellow with red cheek. High quality, juicy. Heavy producer. A new improved hardy variety. Ripens six weeks before Elberta.

KRUMMEL OCTOBER—(Freestone). A rich golden yellow, blushed red at the pit. Good commercial as well as home use. Trees are hardy, fruit hangs on well and has a good market value. The latest yellow freestone. Ripens more than a month later than Elberta.

COMMON SEEDLING PEACH—Many people like a few seedling peach trees in their home orchard as sometimes a seedling will survive a late frost when other kinds will not. These trees may bear small seedling fruit or sometimes may be an exceptionally good sort. We offer these seedling trees at

	Each
2 to 3 feet—Prepaid	\$.35
3 to 4 feet—Prepaid45

NECTARINES

A delicious fruit, a cross between the peach and plum. Fruit resembles a peach in size and shape and much of a peach flavor. As fuzzless as a plum. Good for canning or fresh. Rich golden color. Boston variety.

Price: 1 to 2 feet, 40c each, prepaid; 2 to 3 feet, 50c each, prepaid; 3 to 4 feet, 60c each, prepaid.

APRICOTS

Apricots are becoming more widely grown as our customers become more and more acquainted with the delightfully tasty fruit. The trees are also very ornamental in the early spring for any lawn or garden.

	Each
1 to 2 feet—Prepaid	\$.40
2 to 3 feet—Prepaid50
3 to 4 feet—Prepaid60

GOLD—Large, rich yellow color. Ripens midseason, usually just between the time of ripening of the cherry and peach. This variety is considered exceptionally productive.

GRAPE SPECIAL

Our Concord Grapevines come from our own Concord Vineyards. We have been growing grapes for the market for many years, therefore our vineyards are always in good healthy condition, from which we propagate our plants. We feel you will not go wrong in planting Tromble Grown Concord.

RHUBARB

VICTORIA—Large, tender, part red stalks, skin very tender. Flavor the best. Produces new, tender stalks all during the summer and fall months.

Prepaid Prices: Heavy Roots, 3 for 55c; 5 for 80c; 10 for \$1.50; 50 for \$7.00.

Prepaid Prices: Medium Roots, 5 for 50c; 12 for \$1.00; 50 for \$3.50.

MCDONALD—New red variety. Brilliant crimson red. Very tender stalks. Tremendous yielder.

Prepaid Prices: 60c each; 3 for \$1.65.

NEW THORNLESS BOYSENBERRY

A new introduction which has a pleasing flavor blend of raspberry, blackberry and loganberry. Extra large berries; plants are hardy and vigorous. Easy to handle because the plant does not make thorns. Every garden should have some of these berries.

Prepaid Prices: 12c each; 10 for \$1.00.

TO FIND NUMBER OF PLANTS PER ACRE

Multiply the distance in feet between the rows by the distance the plants are apart in the rows and the product will be the number of square feet for each plant, which, divided into the number of feet in an acre (43,560), will give you the number of plants required per acre.

Sage

SAGE

HOLT'S MAMMOTH—Large leaves, extra fine flavor. Real full-flavored seasoning for your sausage and dressings. **Prepaid Prices:** 20c each; 10 for \$1.75.

GUARANTEE

We guarantee to deliver nursery stock in good growing condition and will replace immediately upon notification any item not proving as such, if notified within 10 days of arrival of the shipment. This guarantee is not good unless the above requirements are met. Nursery stock is the same as any animal or human being, it drinks, feeds and breathes and is subject to disease and drought. We can not warrant any crops as that depends upon many conditions beyond our control. Therefore with proper planting and proper care, we know our stock will do well. We warrant our stock true to name. Should any prove otherwise, we will, upon proper proof, refund purchase price or replace free of charge. We are not liable for damages beyond the amount of purchase price.

Terms: Our terms are cash with order or C.O.D. orders will be accepted if accompanied by one-third cash. All prices herein are for stock packed and delivered f.o.b. Bentonville, Arkansas, unless otherwise stated.

Arkansas Customers: Add 2 per cent to amount of order for state sales tax.

PLEASE NOTE

Most items in this catalog are DELIVERED TO YOU, POSTPAID. Some Fruit and Shade trees, and Evergreens are too large to go by parcel post. They are shipped by express, you pay the express charges.

In some orders, there are trees which must go by express and also some stock which would go by parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege, we include extra stock which has a greater value than the additional express charges amount to.

HOW TO PLANT

Write for your copy of our new book, "How to Plant."
This little book gives much valuable information as to planting, pruning, cultivation, spraying and general care of nursery stock. It is free.

Cushionmum

CUSHION CHRYSANTHEMUMS — 1 pink, 1 bronze, 1 white, 1 red. All 4 for \$1.00, postpaid.

HARDY PERENNIALS

The satisfaction of planting perennials is not only the pleasure received from their beautiful blooms but that they come back year after year. A few plants soon make a good showing.

AGERATUM—Very showy solid clusters of beautiful violet-purple blooms all summer and late fall until heavy frost. Very hardy, withstands drought. 18c each; 3 for 50c, prepaid.

AQUILEGIA (Columbine)—Long spur, choice mixed colors. 35c each, prepaid.

BLEEDING HEART (Dicentra eximia)—Dwarf, ever-blooming, 50c each, prepaid.

BLEEDING HEART (Spectabilis)—Old-fashioned favorite. 80c each, prepaid.

DIANTHUS (Hardy Pink)—New, rose-pink, very fragrant. 30c each, prepaid.

GAILLARDIA (Blanketflower)—Yellow with red center. 30c each, prepaid.

GYPSOPHILA (Baby's Breath)—Masses of white flowers. 30c each, prepaid.

HOLLYHOCK—A wonderful display of color in these old-fashioned favorites, some very darkest of red, pink, white, variegated, shaded colors, pastels, all mixed singles. A few of these will give any back yard distinction. 2 for 30c, prepaid.

IBERIS SEMPERVIRENS (Evergreen Candytuft)—Leaves appear evergreen, pure white flowers, profuse bloomer, spreading habit. One of the very best edging perennials. 40c each, prepaid.

LEMON DAYLILY—Beautiful lemon-yellow color, large lily-shaped flowers, opening each morning, closing each night. Very attractive. Hardy. 20c each; 3 for 50c, prepaid.

PHLOX (Star Light)—Rich violet with almost perfect shaped white star in center. Strong growing, free blooming. Price, 35c each, prepaid.

CHRYSANTHEMUMS

ALGONQUIN—One of the best. Bright yellow flowers. 40c each, prepaid.

KING MIDAS—Double soft yellow-bronze flowers. 40c each, prepaid.

RED FLARE—Bright glowing double red, tall straight stems. Good cutter. 40c each, prepaid.

VIVID—Rosy-crimson, large. 30c each, prepaid.

CHRYSANTHEMUM (Cushionmum)—A mass of flowers from early August to heavy frost. Very hardy and showy. Low-growing, forming mounds of color.

Pink Cushion—Opens first to deep orchid pink later lighter pink with creamy center, finally beautiful salmon pink shades. 35c each, prepaid.

Bronze Cushion—Same as Pink Cushion except rich red bronze. 35c each, prepaid.

Red Cushion—Pure fiery red. 35c each, prepaid.

White Cushion—Snow white with faint yellow center. 35c each, prepaid.

Yellow Cushion—Pure brilliant, golden yellow. 40c each, prepaid.

SHADE, ORNAMENTAL AND NUT TREES

LOMBARDY POPLAR—A rapid growing, tall, slender tree which if planted individually or grouped gives a distinctive appearance to any home grounds. Very attractive behind buildings or along drive-ways. Often used for tall screens or windbreaks. 6 to 8 ft., 75c each, not prepaid; 5 to 6 ft., 50c each, not prepaid; 4 to 5 ft., 40c each, not prepaid.

RED DOUBLE FLOWERING PEACH—Attractive tree shape, beautiful double red flowers cover each branch early in spring. Very showy. 2 to 3 feet, 60c each, prepaid; 3 to 4 feet, 75c each, prepaid.

RED BUD or JUDAS TREE—Rather small growing tree, has beautiful pink blooms early spring before the attractive heart-shaped leaves appear. 2 to 3 feet, 50c each, prepaid.

PERSIMMON, American—Fruit about one inch in diameter, turning orange-yellow after frost. Tree is ornamental. 50c each, prepaid.

FIGS (Everbearing)—Large. Often bear first year. 12 inches, 50c each, prepaid.

PAPER SHELL PECANS (Stuart)—A successful variety for most soils. Tree especially good for shade as well as profitable nut producer. Bears young. Nuts very large, oblong, dark color; flavor very rich and sweet. This variety has proved a good disease resistant. \$2.25 each, prepaid.

CHINESE ELM—Most rapid growing shade tree; extremely hardy, withstands drought exceptionally well. Leaves out early, making a nice early spring shade and retains leaves very late in fall. This tree has become the most popular shade tree planted. Well branched trees. 8 to 10 feet, \$3.00 each, not prepaid; 6 to 8 feet, \$2.00 each, not prepaid. (See page 12 for small trees.)

NIOBE GOLDEN WEeping WILLOW—Hardest of all willows. Long, drooping branches. A tree of beauty the year round. Beautiful golden bark during winter months and early spring makes this tree very showy. Reaches a height of 30 to 40 feet at maturity. 5 to 6 feet, 2-year, \$1.00 each, not prepaid.

EVERBEARING MULBERRY (Black English)—Hardy. Fruit lasting about six weeks. Rich in flavor. 4 to 5 feet, \$1.00 each, not prepaid.

HOPA FLOWERING CRAB—A handsome ornamental tree. An abundance of bright red flower clusters in the spring. 50c each, prepaid.

Lombardy Poplar

Chinese Elm

Everblooming Roses

Heavy. Two-year, Field-grown: 45c each; 12 for \$5.00, prepaid.

AMI QUINARD—Dark velvety red, almost black. Very fragrant.

WHITE AMERICAN BEAUTY—Very large, pure white.

GOLDEN CHARM—Rich yellow, hardy and upright grower.

PRESIDENT HOOVER—A glorious new multi-color, bright cerise-pink softened with yellow, orange and scarlet; fragrant, pointed buds.

ETOILE DE HOLLANDE—Very large, well built, brilliant red blooms. Fragrant. One of the best garden roses.

PINK RADIANCE—America's leading rose. A beautiful pink; long pointed buds. Thrifty grower.

RED RADIANCE—Same type as Pink Radiance except a beautiful red.

COLUMBIA—Beautiful peach-pink. Superior shaped buds on large nearly thornless stems.

TALISMAN—Gorgeous colors in gold, apricot-yellow, orange, deep pink and old rose; long pointed buds. A great favorite.

CONDESSA DE SASTAGO—Coppery-old-gold and yellow.

ROUGE MALLERIN—Large, double, dark scarlet.

SOEUR THERESE—Chrome-yellow. Fragrant. Beautiful buds and foliage.

CLIMBING ROSES

Heavy. Two-year, Field-grown, 45c each, prepaid.

CLIMBING PAUL'S SCARLET—Beautiful, blazing, crimson red. Semi-double flowers. Good bloomer. Very hardy.

CLIMBING RED RADIANCE—The same thrifty, hardy grower that it is in the bush rose. Very attractive. A beautiful rich red. We are happy to be able now to furnish these bush type bloomers in climbers.

CLIMBING CALEDONIA—Pure white.

POLYANTHA (Baby Roses)

Heavy. Two-year, Field-grown, 45c each, prepaid.

PFITZER JUNIPER—Low growing, horizontally spreading branches. Beautiful green foliage. This is the most popular spreading evergreen. Used in foundations, along a path or rockeries. 15 to 18 inches, spread, \$3.00 each, not prepaid; 18 to 24 inches, spread, \$3.50 each, not prepaid.

Fruit Tree Planting Suggestions

On arrival, the nursery stock should be placed in a tub or pail of water for a short time before heeling-in or placing in cellar, until ready to plant out.

To heel-in, dig a trench about twelve inches deep and a foot or two wide in garden or similar protected place. Trees or plants are placed in this ditch and covered with loose soil well up on the trunks or at least above the ground line in nursery row. They should be separated a few inches apart so air holes are not formed when soil settles. If soil is tramped in, stock can remain heeled-in all winter. Where the garden is not fenced for rabbits, wire netting or board fence should be placed around stock. The nursery stock should be standing straight or at an angle of forty-five degrees in the trench.

Prepare ground for transplanting as for wheat or corn. While transplanting we suggest carrying stock in barrel or tub of water. Follow illustrated planting instructions.
